

Retro Light 1.0 Outshines The Crowd

Published on 09/07/10

Rade I Eccles today announces Retro Light 1.0 for iPhone and iPod touch. Retro Light joins vintage analog hip with a modern ultra-lounge vibe to create the best multipurpose light app on the market. Choose between the utility of an LED/LCD flashlight or the euphoria of a mood light using a classic interface that evokes 70's era Hi-Fi stereo systems to provide a blissful and groovy user experience.

Overland Park, Kansas - Rade I Eccles today announces the release of Retro Light 1.0 for iPhone and iPod touch. Retro Light joins vintage analog hip with a modern ultra-lounge vibe to create the best multipurpose light app on the market. Choose between the utility of an LED/LCD flashlight or the euphoria of a mood light using a classic interface that evokes 70's era Hi-Fi stereo systems to provide a blissful and groovy user experience.

A single, well placed button will quickly toggle the flashlight functionality on or off. For iOS devices that have an LED this produces an ultra bright light to help navigate in the dark. Devices without an LED will take advantage of the full LCD screen and display a bright white background which can be used to light your path.

Retro Light 1.0 is more than just a simple flashlight; it is a relaxing ambient mood light as well. Whether docked in the cradle, held in the hand, or strategically placed in a room, it will provide a random oscillation of vibrant light. As it cycles through color, intensity, and brightness settings it produces a never ending stream of soothing ambient colors to enhance your mood.

Features of Retro Light 1.0 include:

- * Instant access to a powerful LED flashlight on supported iOS devices
- * Instant access to a bright white LCD display on all other iOS devices
- * Customizable settings for color, intensity, and brightness
- * Random oscillation of customizable settings produce an endless spectrum of mood lighting
- * Toggle an "always on" option to prevent the device from sleeping for long lasting enjoyment
- * Realistic sound effects for button presses and switch toggles complete the retro user experience
- * Hide the surrounding frame and user interface to experience full screen ambient light

Device Requirements:

- * iPhone and iPod touch
- * Requires iPhone OS 4.0 or later
- * 12.5 MB

Pricing and Availability:

Retro Light 1.0 is only \$0.99 (USD) and available worldwide exclusively through the App Store in the Utilities category. Promo codes are available for qualified reviewers. Please specify the website or blog you represent when making your request.
